

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. LESSONS OF THE WAR WITH SPAIN.

BY CAPTAIN ALFRED T. MAHAN, D.C.L.

[Ready.]

'His general survey of the naval and military position, both in his own country and in Spain, when the war first
commenced, is profoundly interesting, not only as an historical record, but owing to its suggestiveness with regard to certain
problems of the highest importance to this country, and more especially with reference to the defence of an extensive
seaboard.'—*STANDARD*.

PREFACE.

WAR and rumours of war affected the production of books in 1898, which numbered four hundred less than in 1897. It may be a sign of sympathy with our cousins across the Atlantic, that the Spanish War which ruffled them affected our book production to almost precisely the same extent as the South African conflict in which we are personally concerned; the new books of 1899 numbering 5,971, as against 6,008 in 1898.

In the monthly parts of the English Catalogue more books are recorded than in the weekly lists of the *Publishers' Circular*, which very rarely include books priced at less than a shilling. In this yearly volume are contained titles of many privately printed, provincially published, and other books which were not included in Nos. 25 to 36 of the monthly parts. Those who wish to keep themselves both promptly and fully informed as to the publication of books must subscribe to the *Publishers' Circular* and to both monthly parts and yearly volumes of the ENGLISH CATALOGUE.

Collections, Libraries, and Series of books will be found grouped under the heading **Series**. Publications issued by Learned Societies should be sought for under the heading **Transactions**. We regret that some publishers and secretaries of societies did not reply to our circular in time to allow us to include their information in this volume, but it will appear eventually in Vol. VI. of the English Catalogue of Books.

To those many publishers and secretaries who by kind and prompt replies have assisted us to complete this list of English books published in 1899 we tender hearty thanks. We have especially to express our obligation to Mr. W. K. FORTESCUE (compiler of a Subject Index to Modern Works), and to many bibliographers and authors who have sent additions or corrections, or in other ways helped towards the perfection of this Catalogue.

Should any of our readers notice the absence of a title which ought to have appeared in this volume, or know of the publication of a work which will not 'be subscribed to the trade in the usual way,' or for any other reason is likely to escape our next volume, we shall be much obliged if he will send us copy of title with items of information on the accompanying form.

DIRECTORY OF PUBLISHERS.

This list of publishers, with their addresses, has been principally compiled with a view to supplying information regarding the books in the English Catalogue for 1899. This will explain the inclusion of many firms in the list who can scarcely, in the strict acceptance of the term, be called publishers, since the publication of books forms only an occasional portion of their business.
